

SUMIT SHARMA

Software Engineer | Java Full Stack Developer | ReactJS Frontend Developer

+91-8920113810 | sumitsharma.sp15@gmail.com | Gurugram, Haryana – 122001

OBJECTIVE

- To leverage my skills and creativity in software development to build innovative and efficient applications while continuously learning and growing in a dynamic environment.

EDUCATION

Sinhgad College of Engineering, Pune
B.E. in Computer Engineering

May 2020 – May 2024
8.87

SKILLS

- **Frontend:** ReactJS, JavaScript, TypeScript, CSS, Tailwind CSS, Grid, Flexbox, Redux, etc.
- **Backend:** Spring, Spring Boot, Hibernate, JPA, Maven, Gradle, JDBC, Spring Security, Servlets, JSP (Advanced Java), REST APIs, Firebase.
- **Database:** MySQL, MongoDB.
- **Languages:** Java, C++.
- **Cloud:** AWS Cloud Services, Railway Cloud, Cloudinary, Docker.
- **Core Subjects:** Operating Systems, Database Management, Computer Networks, OOP in Java.
- **IDEs:** Visual Studio Code, IntelliJ Idea, Eclipse.
- **Data Structures and Algorithms in Java.**

PROJECTS

Truth Lens – Final Year Project

April 2024

- **Project Overview:** Developed a web application to generate and detect artificial facial images.
- **Technologies Used:** Python, TensorFlow, Keras, FastAPI, ReactJS, JavaScript, Tailwind CSS.
- **Key Achievements:** Successfully created a comprehensive solution for both the generation and detection of synthetic facial images, showcasing the capability of deep learning models in image processing tasks.

Instagram Web Clone – Full Stack Project

Feb 2024

- **Project Overview:** Developed a full-stack web application replicating the Instagram web version.
- **Technologies Used:** Java, Spring Boot, Hibernate, JPA, MySQL, Spring Security, JWT, ReactJS, Tailwind CSS, Redux, AWS.
- **Key Achievements:** Demonstrated proficiency in building and deploying scalable web application with robust security features and a seamless user experience.

Next Hire – Frontend Project

May 2024

- **Project Overview:** Developed a fully authenticated and responsive Job Portal web application.
- **Technologies Used:** Next.js, TypeScript, Tailwind CSS, Next-Auth, Firebase.
- **Objective & Key Achievements:** Created a secure and user-friendly job portal, mastering server-side rendering with Next.js, enhancing responsiveness with Tailwind CSS, and implementing robust authentication with Next-Auth.

INTERNSHIP

Web Developer Intern, InternPe

March 2023 – April 2023

- Developed software solutions for clients using ReactJS and various frontend React libraries.
- Improved reach and customer satisfaction by implementing innovative frontend solutions
- Contributed to projects aimed at enhancing user experience and overall product quality.

ACHIEVEMENTS

- Won 1st prize in Research paper presentation for Final year project at College level.
- Scored “93.65” percentile in JEE Mains 2020 - (2nd rank in 2024 batch).
- Got under 7000 Rank in WBJEE 2020.
- Won 1st prize in IQ competition twice at High School Level.

EXTRA CURRICULARS

- Guitarist with extensive participation in college and university events.
- Active member of the "ART CIRCLE" throughout college, contributing creatively and collaboratively.
- Skilled in music and video editing.
- Keen interest in reading self-improvement books.
