

SUMIT SHARMA

Java Backend Dev | ReactJS Frontend Web Dev | React Native Android Dev

+91-8920113810 | sumitsharma.sp15@gmail.com | Gurugram, Haryana – 122001

WORK EXPERIENCE

Full Stack Developer, Blank Canvas Design Co.

(1.1 years) Aug 2024 – Sept 2025

- Built responsive web and mobile apps using ReactJS and React Native, delivering modern UI/UX.
- Developed and maintained backends with Spring Boot and Firebase, ensuring scalability and security for clients like Voodoo.
- Integrated OpenAI and other generative AI APIs, along with Google Play In-App Subscriptions, to deliver AI-driven features and secure payment flows.
- Collaborated in Agile teams, optimizing application performance and delivering features on time.

Web Developer Intern (During College years)

(2 Months) March 2023 – April 2023

- Built client-facing web solutions using ReactJS and modern frontend libraries.
- Enhanced user experience and engagement through interactive features.
- Gained practical experience in REST API integration, Git, and deployment workflows.

EDUCATION

Sinhgad College of Engineering, Pune

May 2020 – May 2024

B.E. in Computer Engineering

8.87 CGPA

PROJECTS

Plugged (iOS App Backend), Client: Voodoo - [link](#)

April 2025 – June 2025

- Developed a **serverless backend** with **Firebase**, enabling users to curate and share music, movies, TV shows, and books with **real-time group chat** and social features (follow/unfollow, block, notifications).
- Integrated Apple MusicKit & API, TMDB API, and Google Books API for rich media content.

BlankCanvasDesign.co (Company Website) - [link](#)

July 2025 – Aug 2025

- Built the company's official website with **Vite, ReactJS, Tailwind CSS, Anime.js, and Konva.js**.
- Implemented an **interactive drag-and-drop canvas** with custom animations to showcase photo and carousel editing services.

Tawk2 Relationship Cards (Android Project) - [link](#)

Feb 2025

- Developed a **card-based Android game** with **React Native Expo**, featuring category-based questions and AI-powered card generation for subscribers.
- Integrated **OpenAI API, SQLite, and Google Play In-App Purchases**, enabling secure subscription-based monetization.

SKILLS

- **Frontend:** ReactJS, React Native, JavaScript, TypeScript, CSS, Tailwind CSS, Flexbox, Redux, etc.
- **Backend:** Spring, Spring Boot, Hibernate, JPA, Maven, Gradle, JDBC, REST APIs, etc.
- **Database:** MySQL, SQLite, MongoDB.

- **Languages:** Java, C++.
- **Cloud:** Firebase, Google Cloud, AWS (EB, S3).
- **Core Subjects:** Operating Systems, Database Management, Computer Networks, OOPs in Java.
- **Data Structures and Algorithms in Java.**

ACHIEVEMENTS

- Scored **93.65 percentile** in **JEE Mains 2020**, securing **2nd rank in the graduating batch of 2024**.
- Published a **research paper** on detecting AI-generated images, selected by **IEEE**.
- Ranked **under 7000** in **WBJEE 2020**.
- Won **1st Prize** twice in **IQ Competitions** at the high school level.

EXTRA CURRICULARS

- Performed as a **guitarist** in multiple college and university events.
- Active member of the college **Art Circle**, contributing to cultural programs and collaborations.
- Skilled in **music and video editing**, with hands-on experience in creative tools.
- Enjoy reading **self-improvement books**.
